

It's a historic time in our channel as we fully transition from retailer.directv.com (DIRECTV DWS) to OPUS or SARA Plus for all wireless, Internet, and video orders. As you approach for your final turndown date of March 26 or April 2, 2019, use this checklist to ensure you're ready!

To access the details checklist, open the Turndown Checklist in Related Links. Access to articles in this article and Related Links is restricted based on your myCSP profile.

## DIRECTV DWS Turndown Checklist

### **ATTUIDs**

All dealer employees have their own ATTUID and established Global Login Password.

All dealer employees selling, servicing, or placing orders for AT&T products and services must have an ATTUID created by the principal or delegate using Seller Portal. ATTUIDs can't be shared.

### **System Access Logon Verification**

Whether you're using OPUS or SARA Plus, don't wait until the last minute to ensure you've got access to the systems and tools you need to be successful.

- OPUS Mobile iPads logon (if available)
- EOPUS logon (Desktop or Laptop Computer - if available)
- SARA Plus logon (if available)
- myCSP logon
- Mobile Sales Tool logon
- DIRECTV Activation Portal (TS&R) logon (NFFL Dealers Only)
- Dealer Workspace logon (principals or delegates only)
- Cartesian Reporting Portal logon (principals and delegates only)

### Training and Resources

Ensure you and your teams are ready for this transition and are comfortable placing all orders through OPUS as appropriate. To be ready, review the resources below:
